Why AVG?

We know what's important to you when you're online – sharing photos and music, chatting, managing your finances, shopping, keeping in touch with friends and family. You don't want to be worrying about security. AVG takes the uncertainty out of going online, protecting you wherever you go and whatever you do.

AVG gives you the vital extra layers of protection you need to stay safe from today's biggest online threats. Threats to your most valuable personal information like bank account and credit card details. Not to mention your music, photos, documents, and more.

¹ AVG Internet Security was rated Number 1 in threat detection by AV-Test Org May-August 2010. ² Our malware scanning engines are among the fastest in the industry, however all security software uses memory and processor power and can therefore result in slower system performance.
